23 A grant from the Local Fund General is ordinarily inadmissible for providing drinking water wells in villages - Vide G.O. No. 2347-8/L.F. 2-98 dated 19.8.1898

Para 11 have been brought to my notice by P.W.D.

VI Branch IV has no information as regards the expenditure incurred from the provision of Rs. in the Triennial Forecast. Bor. II may furnish the information.

Para 12

VII It does not appear to be the intention of the G.O. of 6th Jan. 15 that the contributions from all the 3 sources should be spent scrupulously in definite proportions. As the duty of providing villages with water primarily devolves upon the Dt. Boards, the funds will perhaps be drawn upon first and then the Spl. funds allotted from the V.I. Scheme and the Special State grant of Rs.

Paras 13, 14, 15

These allotments are however regarded as contributions to the Dt. Funds once for all, and there seems to be no necessity to keep them apart and only give credits

to the Presidents of Bds. Boards on periodical Statements of expre received from them. The intention appears to be to make the grants absolute and to permit the Boards to retain all unspent balances of one year and to spend them in the next and subsequent years. The reason why the Financial Branch was not previously consulted is perhaps that the whole question was discussed in the Council and the grant budgetted for.

BE
13.3.15 DPWee 4/

Ans
15/3

W I understand that there was some discussion in Council at the time the Budget Estimates of 1914-15 were considered at which the Financial Secy was present and the provision of Rs 1 lakh of rupees was made with his consent. The question to consult him further was de

[G. R. S. 12]

Serial No.

the oversight and arrangements have now been made to prevent such case.

2 At present it is considered to be the duty of the St Boards to provide these wells but they are able to do very little. There is a certain amount of pressure activity when until of failure of rain there is difficulty for drinking water and some amount is provided from Govt General but most of these wells are of a temporary character. The present arrangements has been arrived at as a safeguard against mere unsystematic expenditure.

3 The St Boards concerned should not be allowed to utilize the special grant except for drinking-water wells & through of course the unspent portion of the grant in each year should not be allowed to lapse, as the grant will be

G..R. S. 12]

General and Revenue Secretariat. 26 File No. 12 of 1915.

erial No.

given only for a limited number of years I think that a separate account should be maintained.

3) I am not in favour of lumping all the funds together. In every St. Fund estimates should exist upon a provision for calls being included not less in amount than the average for the preceding 5 years. It may be spent principally for calls where the full amount of contribution has not been received. Such a course will have a twofold advantage. St. Boards will then have no temptation to evade this necessary obligation. Every case in which a concession has been shown is likely to be examined carefully. Any balance that may be left after providing for these cases may be spent under the

2567 Revs 714-14

G. R. S. 12]

General and Revenue Secretariat. LB File No. 12 of 1915.

Serial No.

and in any rule.

32 As there are other equally important works to be carried out under the V. I. Scheme the allotment under Village Improvement should not be cut down upon till the provision in the St Fund schemes & the Special Grant are utilized.

33 The amount required by the Rail Cess is to fix the proportion of expenditure for each well in a certain ratio i.e. ½ by the public ⅛ th by the St Fund & ⅜ th by the cultivator. No doubt the merit of great simplicity and it also convenient to work out in practice but the procedure suggested by me though somewhat cumbrous is likely to result in a better regulation of expenditure.

+ precis of the case is submitted as instructed by 1/4/15

34 Submitted in connection with Rule Secy's note of 23.1.15 (pages 3 to 6) above

To [illegible] 29/3/15 30 A precis of the Case is put up in a routine note below.

Of the several points noticed by the Mysore Govt, information as to the Amount utilised out of the 6 lakhs provided for the non-recurring Expr for which sanction was accorded in the first Triennial Forecast may be obtained from the Comptr's Office

36 The manner in which Grants for well works which now appear under the several three heads are to be used has been discussed & rules thereon settled

x) 1) ordinary allotment made every year in the D.F. under D.Q. Budget

2) 50,000 out of V. Improvement Grant

3) 1,00,000 for the Kungwater Lock

(1) above does not require as ego a like Contribution from villagers while (2) & (3) require such a Contribution and therefore (2) & (3) cannot be

NOTE—Contn. sheet.

(40)

GPB—25,000—2-11-14

transferred in a lump sum to the (clubbed with?) District Board. The procedure already sanctioned & in force for village improvement works may I think be extended to Drinking Water Wells also for which latter a separate account head should be opened & the allotment taken at 1,50,000 — this allotment for the village works being reduced to 1,50,000

This appears to me to be the most convenient method of dealing with these drinking water well grants.

3) The omission to consult this Branch is explained in para 2 of letter dated 20-6-14 from Deputy Secretary to Govt. No 9767-76 LR 430-13-50

3) The question of the Branch is explained in para 2 of letter dated 7-7-14 from Deputy Secretary to Govt. 184-94 LR 16-14-3

J.4.15

4) A system will have to be laid down which will fit in with the system of expenditure adopted in the case of Village Improvement grant.

5) The first order says that the D.W. Wells grant is to be treated as a contribution to Local Funds. I think it would be well if all grants for D.W. wells be brought

15

R. S. 12]

General and Revenue Secretariat.

LB File No. 12 of 1915.

Serial No.

by transfer within Dist Board funds. The L.F. fund is already worked like that. If the V.I. fund & Cable and the D.W.W. Loan is similarly transferred uniformity in accounts & agency will be established.

A. Of course suitable precautions will have to be taken to see that no wells are sunk by Dist Boards without the people's contribution. To secure uniformity this condition may be introduced into the D.B. & L.F. fund rules also. To give a free will should be made to require first contribution. The working of the condition at A may be left to Dy Comrs subject to local audit. Work registers should be maintained for each work showing first grant and people's contribution.

A/S will please discuss with the concerned & then a draft set of rules may be framed for submission to Govt.

LG 12 1915
GT File No. 8 of 1914-15

Serial No. 50)

According to the draft order the entire Control over the grant for rural water Supply in the district is vested solely in the Deputy Commr and the District Board has no voice in the administration of funds although it is made the agency for the execution of works. There is therefore no reason why the transactions should form part of their accounts when the matter does not concern them

This is opposed to paras 5 & 6 of the order of the 6th Jany 1915 Flag V

The grant is no longer a Contribution to Dt Funds as directed in the order of the 6th Jany 1915. It is therefore a point for Consideration Why the Whole allotment should not be shewn under the Village Improvement Scheme and the transactions regulated thereunder by the rules thereunder

Para 8 of flag V

The duty of providing water supply is primarily devolves on the Dt Bd & they have to do it whether the people Contribute anything towards it or not in addition to Local cess. In practice District Boards Sanction wells for Villages although Villagers Contribute nothing further than payment of local cess. Para 6 of the proposed order appears to Curtail the responsibility of the Dt Boards. ~~appears to involve the issue of cheques by the President more than once to cover a single~~ payment is therefore not acceptable. ~~from the rate payer's point of view~~

The Dt. Board is bound to provide water supply even without Contributions in the poorer tracts & in tracts where the very nature of the soil renders Contributions from the people impossible. The proposed order states that Contributions from the people will be required for well works to be executed out of Dt funds proper implying thereby that no wells-works shall be sanctioned unless people pay necessary Contribution

of well works during that year. If such be not the case, the amount so spent, should be taken into account and deducted in the grant for the subsequent year.

This method is quite easy as all the data are with Govt and the above rule will ensure the prompt execution of works.

53) Interference in detail ~~does not help~~ is not conducive to efficiency, and will still further restrict the discretion of local bodies, which are already too much under the control of the Central Govt.

54) If it is contended that the method advocated in the draft is necessary to ensure that the money granted by Govt is spent only on well works, and that such a safety does not exist in the system indicated by me, I beg to respectfully to point out that the other method is by no means effective; for every sanctioned estimate need not necessarily be worked out

PROCEEDINGS OF THE GOVERNMENT OF
H.H. THE MAHARAJA OF MYSORE

Read--

Government Order No. R.5248-59-San 38-12-38 dated the 6th January 1915 passing orders in the matter of sinking and improving drinking water wells in the villages of the State.

Order No: 800-10 LCB 12-15-1 a/c each
Dated, Bangalore, the 26.7.15

The following subsidiary instructions are issued regarding the procedure to be observed for drawing the amounts provided for village well works in the Government Order read above.

2. A separate sub-head called "Drinking water wells Fund" will be formed under 'District Funds' and a sum of Rs.2 lakhs made up of contributions noted below will be annually credited to it for 3 years commencing with 1914-1915.

| | Rs. |
|---|---|
| (1) State grant | 100,000 |
| (2) Contribution from District Funds | 50,000 |
| (3) Contribution from Village Improvement allotment | 50,000 |
| | 200,000 |

In what proportion from several District Funds?

This amount of Rs.2 lakhs will be annually distributed and placed at the credit of the Presidents of the several District Boards according to their requirments. The aggregate amount allotted to each district will form a separate earmarked grant account & will not be pooled up in the General balance of the District Fund.

as 2(1) under the three heads mentioned above

3. The contributions raised by the villagers for meeting half the cost of the wells should if made in cash be remitted to the Treasury to the credit of the Drinking Water Wells Fund of the District concerned.

4. Grants-in-aid for well works will be sanctioned by the Presidents of the District Boards not exceeding, in the aggregate, the allotment available in the District concerned after the President has satisfied himself that the villagers' contribution has been paid into the Treasury or an equivalent quantity of work has been done by them. In special cases in which the condition that the villagers should contribute half the cost is relaxed by the President the amount required for the well will be sanctioned as a grant-in-aid out of the District allotment. Work registers should be maintained for each well undertaken showing the people's contribution and the Government grant-in-aid.

5. When payment has to be made either during the progress of the work or after completion, separate work bills will be passed by the President and paid at the Treasury out of the Drinking Water Wells Fund. The Presidents may also sanction advances in respect of each well work not exceeding 25 % of the cost at a time subject to adjustment within one month from the date of grant.

6. A quarterly report on the progress of well works should be submitted

submitted to Government by the Presidents in the form appended to this order.

7. The Comptroller is requested to issue needful further instructions regarding the method of accounting for sums drawn, submission of vouchers for audit, and the maintenance of accounts.

No. 800-10—L. B. 12-15-1, DATED 26TH JULY 1915.

# PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

## GENERAL AND REVENUE DEPARTMENTS.

READ—

Government Order No. R. 5248-59—Sun. 58-12-38, dated the 6th January 1915, passing orders in the matter of sinking and improving drinking water wells in the villages of the State.

### Order No. 800-10—L. B. 12-15-1, dated 26th July 1915.

The following subsidiary instructions are issued regarding the procedure to be observed for drawing the amounts provided for village well works in the Government Order read above.

2. A separate sub-head called "Drinking water wells fund" will be formed under "District Funds" and a sum of rupees two lakhs made up of contributions noted below will be annually credited to it for three years commencing with 1914-15.

| | Rs. |
|---|---|
| (1) State grant ... ... | 1,00[illegible] |
| (2) Contribution from District Funds ... | 5[illegible] |
| (3) Contribution from Village Improvement allowance ... ... | 50[illegible] |
| Total ... | 2,0[illegible] |

This amount of rupees two lakhs will be annually distributed under the three heads mentioned above and placed at the credit of the Presidents of the several District Boards according to their requirements. The aggregate amount allotted to each district will form a ear-marked grant and will not be mixed up with the general balance of the District Fund.

3. The contributions raised by the villagers for meeting half the cost of the wells should, if made in cash, be remitted to the Treasury to the credit of the drinking water wells fund of the district concerned.

4. Grants-in-aid for well works will be sanctioned by the Presidents of the District Boards not exceeding, in the aggregate, the allotment available in the district concerned after the President has satisfied himself that the villagers' contribution has been paid into the Treasury or an equivalent quantity of work has been done by them. In special cases in which the condition that the villagers should contribute half the cost is remitted by the President the amount required for the well will be sanctioned as a grant-in-aid out of the district allotment. Work registers should be maintained for each well undertaken showing the people's contribution and the Government grant-in-aid.

5. When payment has to be made either during the progress of the work or after completion, separate work bills will be passed by the President and paid at the Treasury out of the drinking water wells fund. The Presidents may also sanction advances in respect of each well work not exceeding 25 per cent of the cost at a time subject to adjustment within one month from the date of grant.

6. A quarterly report on the progress of well works should be submitted to Government by the Presidents in the form appended to this order.

No. 800-10—L. B. 12-15-1, DATED 26TH JULY 1915.

7. The Comptroller is requested to issue needful further instructions regarding the method of accounting for sums drawn, submission of vouchers for audit, and the maintenance of accounts.

V. R. THYAGARAJA IYER,
*Secy. to Govt., Rev. Dept.*

To—The Presidents of the District Boards.
The Comptroller, Mysore Government
The Revenue Commissioner in Mysore
The Sanitary Commissioner in Mysore
